How to use this pack

Each template includes a subject line and body. Swap the brackets for real values:

- [Client name] — who you're writing to
- [Invoice #] / [Amount] / [Due date] — the facts
- [Payment link or bank details] — how they pay
- [Your name] — how you sign off

Send from your own email so clients hear from you — not from an automated collections domain. Chasa writes drafts; you stay in control of the send.
